

# Keep Kitchen Surfaces Clean

**Bacteria and other organisms are everywhere — in the kitchen and on our hands too.**

**Make sure you keep your kitchen surface clean, especially after chopping vegetables, cutting meat / fish.**

**If kitchen and dining surfaces are contaminated, your food could be affected. This is a major health hazard for your family, especially for infants and the elderly.**

**Dishcloths, crockery and cutlery should be kept clean as well.**

Hygiene is one of the key values at **Life Line Feeds (India) Pvt. Ltd.** Right from the farm to the processing facility, the retail outlets and to you — it is **Hatch to Health.**

*Enjoy Life Line's Tender Chicken experience!*

LIFE LINE'S TENDER CHICKEN is a unit of LIFE LINE FEEDS (INDIA) PVT. LTD.  
Sri Manjunatha Chambers, Ratnagiri Road, Chikmagalur 577101
